

## IRS Publication 963

The latest edition of the Federal-State Reference Guide (IRS Pub. 963) is now available on-line at: <http://www.irs.gov/pub/irs-pdf/p963.pdf> . The Legislative Committee suggests that you “bookmark” the site as the Guide is a valuable resource for you as well as for your state and local government employers and employees.

We are pleased to say that the IRS and SSA (which are co-publishers of the Guide with NCSSSA) agreed to the vast majority of the edits and changes that NCSSSA recommended this year, including reinstatement of the Chapter (now Chapter 9) on State Social Security Administrator responsibilities. In recent editions of the Guide, that information had been distributed throughout the document, thus making it difficult for our state and local government employers and employees to see what services (and value) State Administrators provide.
